

# Installing & Operating FSP 3000 CloudConnect™

3 days *remote or classroom* technical training

Our FSP 3000 CloudConnect™ is a solution that has been built directly with the industry. We've worked closely with major Internet Content Providers (ICPs) and Cloud Service Providers (CSPs) to develop a technology that meets stringent density, security and energy demands. Our FSP 3000 CloudConnect™ is the industry's only truly open Data Center Interconnect (DCI) solution.

## Objective

A training course on ADVA FSP 3000 Cloud Connect using CLI. OpenFabric, QuadFlex and CryptoMux will be covered in detail.

*Please, note: the training will be provided using GoToTraining application or other tool – we will arrange a short test of the tool upfront the training – you will get invited for both – test and training session.*

*For the practical exercise's trainer will hand over keyboard and mouse to one student at a time for e.g. a configuration exercise.*

*Please note: recording of the remote training sessions is not permitted.*

## Benefits & Audience

- Benefits: : To achieve self-sufficiency at installation, configuration and maintenance of the ADVA Cloud Connect solution
- Class size: 8 attendants maximum
- Certificate of attendance, ACE exam available on request (separate order)
- Target audience: beginners to WDM as well as experienced users who need to get familiar with the ADVA FSP 3000 Cloud Connect™ product

## Prerequisites

The attendees should have basic knowledge of WDM, OTN and TCP/IP protocols.

# Installing & Operating FSP 3000 CloudConnect™
