Introduction to Mosaic Cloud Platform

1 days *virtual* or *classroom* technical training

.

Mosaic Cloud Platform (Mosaic CP) is an open microservices architecture providing network management and SDN control for the entire access network. It unlocks control and management functions from the underlying network elements, enabling a more flexible, agile services delivery framework.

Objective

This course is for people who will be using Mosaic Cloud Platform.   This course covers navigational features for Mosaid Cloud Platform including the use of shortcuts, the dashboard tabs and viewing the network. When the course is over the user will understand the basics for how to use Mosaic CP without getting into specific details for particular Adtran services.

Benefits & Audience

- **Benefits**: To achieve self-sufficiency at installation, configuration and maintenance of the Mosaic Cloud Platform solution
- **Class size**: 12 students maximum
- **Target Audience**: End Users, System Engineers, Network Engineers, Value Added Resellers and Distributors
- Certificate of Attendance

Prerequisites

Mosaic Cloud Platform Architecture Overview – students can self-enroll at
www.adtranuniversity.com

Introduction to Mosaic Cloud Platform

Agenda

Theory/Lecture

- Introduction to the Mosaic Cloud Platform Graphical User Interface
- Introduction to the Mosaic Cloud Platform Menus
  - o Administration Menu
  - o Assurance Menu
  - o Inventory Menu
  - o Orchestration Menu
  - o New Object Menu
- Mosaic CP CDA Introduction
  - o Displaying Configured Objects
  - o Editing Objects
  - o Mosaic CP Labels
- Introduction to the Mosaic Cloud Platform Customer Service Representative (CSR) Portal
  - o CSR Portal Introduction
  - o CSR Portal Buttons

Practice/Lab

- Students will be using Amazon Workspaces (AWS) for all lab exercises.

- Exploring the Mosaic Cloud Platform GUI
- Mosaic CP Navigation and Onboarding Introduction
