

Mosaic One Operate

60-minute Instructor-led training

Mosaic One Operate equips network engineering and maintenance teams with AI-driven insights to proactively identify at-risk connections and alarms, reduce truck rolls and minimize network downtime.

Objective

This course provides a foundation for using Mosaic One Operate Portal. Through videos and assessment questions, learners will be able to navigate the portal, understand the hierarchy, and use the insights to troubleshoot current and upcoming problems in their network.

Benefits & Audience

- **Benefits:** To understand Mosaic One Operate, Log into Mosaic One Operate to examine insights as it pertains to the network and determine actionable items to improve network health.
- **Target Audience:** Network engineers and Maintenance teams
- Certificate of Attendance

Prerequisites

none

Agenda

Theory/Lecture

- Mosaic One Introduction
- Mosaic One Operate Overview
 - Exploring Operate's interface
 - Features and Functions
 - Supported hardware
 - Information gathering
- Introductions to Insights
 - Insights details
 - Filtering options
- Getting Help

Practice/Demos

- Live Demos
